Experience

Product Designer at **Babbel GmbH** SEP 2022 – PRESENT

- Drove the discovery of a new feature "Grammar Guide" in close collaboration with the Product Trio, resulting in a remarkable 14% increase in interactions within the Explore Tab
- Engaged in the redesign of Lesson Experience to address business requirements, focusing on reducing drop-off rates for specific trainers.
- Revamped Culture Bites, addressing a usability issue that hindered dual-language content consumption and seamless navigation.
- As the Art Director of Babbel Design Medium, I design complementary artworks for all articles, ensuring alignment between narratives, visuals, and the Babbel design system.

Product Designer at **Folio3 Pvt Ltd** OCT 2020 – AUG 2022

- Interacted with various clients to identify challenges and propose solutions. I managed requirements, crafted wireframes, mockups, and FSDs, while also supervising usability testing sessions
Major Clients: Vytelle, Eike Consulting, Bill & Melinda Gates Foundation, Inpixon, Elanco, Dynata
- Drove the Folio3 team's shift from Sketch to Figma, enhancing design processes and collaboration. I led 4 months of weekly training for Figma proficiency in components, variants, and autolayout
- Led the creation of a design system for the Animal Care department, boosting efficiency and project integration. This success enabled us to handle more clients effectively

Freelance Designer + WordPress Developer JUN 2017 – OCT 2020

At Fiverr: Worked with 300+ clients from all over the world, with an overall rating of 4.9. Worked on UI designs, branding, logo designs, illustrations & photoshop edits & WordPress.

At Upwork: Worked with different agencies around the world with a 100% Job Success rate. Earned Rising Star and then Top Rated badge within a span of 2 months. Mostly worked on providing UX Solutions, branding and illustrations.

Product Designer (PART TIME) at **Codevative** MAY 2021 – SEP 2021

- Worked on TeleMedicine App Design. The project involved working with stakeholders to conduct requirement gathering, creating information architecture schema, and designing flow diagrams, wireframes and mockups.
- Worked on a maintenance and asset management solution, that involved doing competitive analysis on UpKeep, conducting needfinding, designing wireframes and mockups. Used ANT Design system and increased overall productivity by 50%

Graphic Designer (INTERN) at **Qordata** OCT 2019 – JAN 2020

As an intern my duties were to work as a CRM Assistant to manage hubspot, help marketing team to create presentations and introduce compelling ideas.

Worked on documentation, which involved making User Guides.

UI Developer (INTERN) at **ITG** JUN 2019 – JUL 2019

- Developed websites using frontend technologies like Angular.
- Worked on multiple websites as a support.
